

Item Catalog Mock Ups: 2/1/18

In this app, the homepage will display all current categories along with the latest added items.

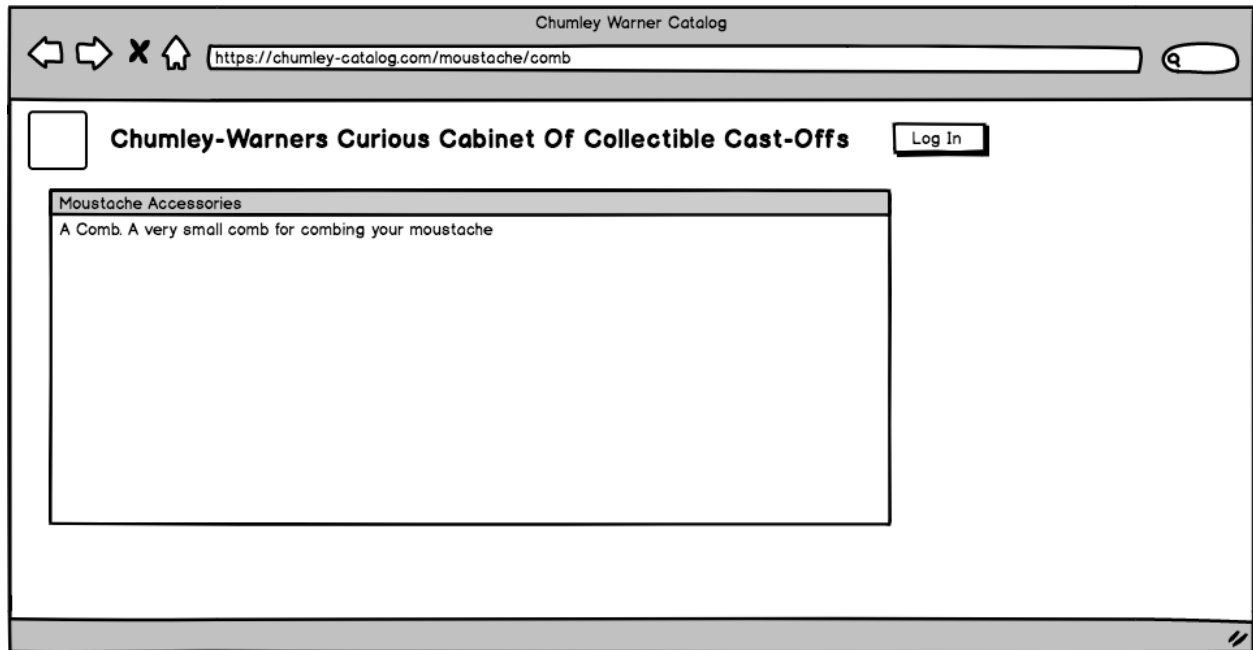

'/'
'/catalog'

Selecting a specific category shows you all the items available for that category.

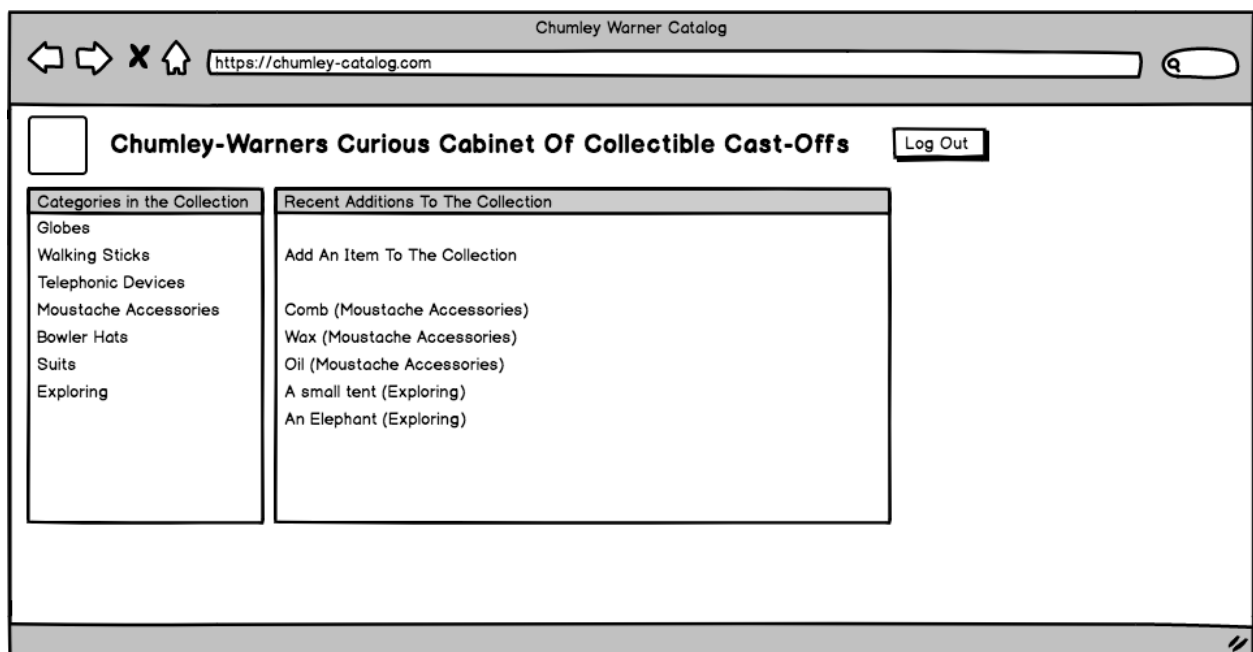

‘/catalog/moustache/items’

Selecting a specific item shows you specific information of that item.

‘/catalog/moustache/comb’

After logging in, a user has the ability to add, update, or delete item info.

'/' (logged in)

'/catalog' (logged in)

Adding an item:

The screenshot shows a web browser window titled "Chumley Warner Catalog" with the URL "https://chumley-catalog.com/moustache/comb". The page header includes a search icon and a "Log Out" button. The main content area is titled "Chumley-Warners Curious Cabinet Of Collectible Cast-Offs". Below this, there is a section titled "Add An Item To The Collection" which contains a form with the following fields: "Category:" with a dropdown menu showing "ComboBox", "Item" with a text input field, and "Item Description" with a larger text area. The browser's address bar and navigation icons are visible at the top.

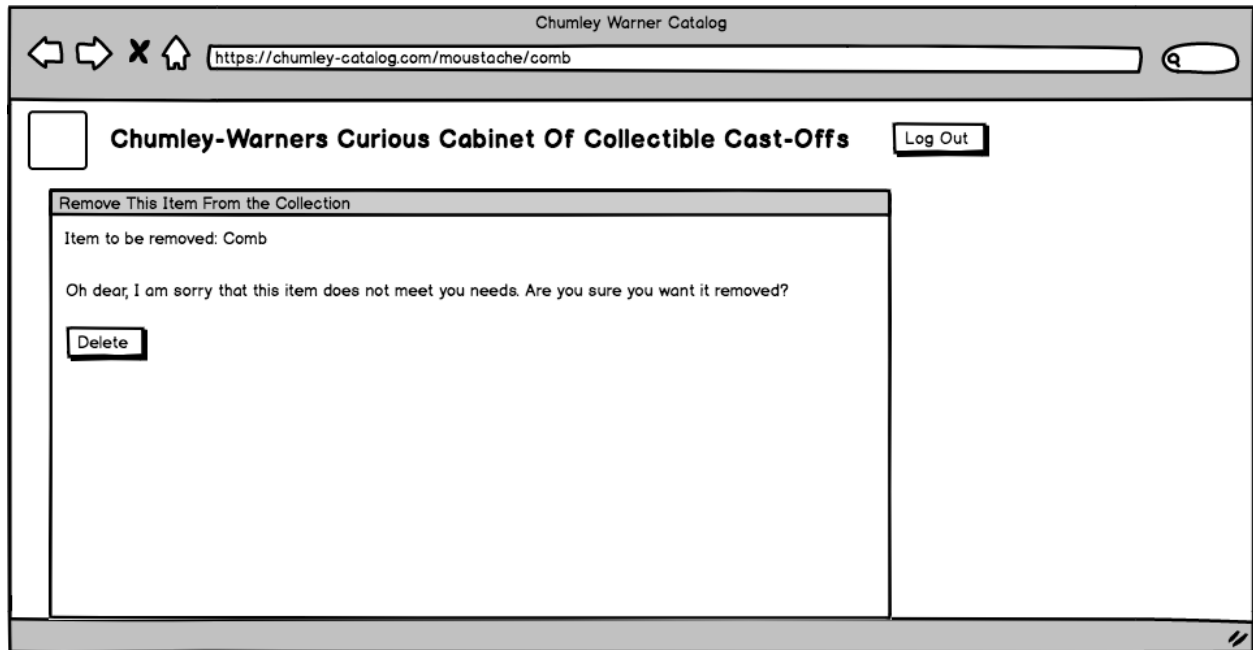

'/catalog/add' (logged in)

Editing an item:

The screenshot shows the same web browser window, but the URL is "https://chumley-catalog.com/moustache/comb". The page header is identical. The main content area is titled "Chumley-Warners Curious Cabinet Of Collectible Cast-Offs". Below this, there is a section titled "Moustache Accessories" which contains a list of items. The first item is "A Comb. A very small comb for combing your moustache". At the bottom of this section, there are two buttons: "Edit" and "Delete". The browser's address bar and navigation icons are visible at the top.

`‘/catalog/moustache/comb/edit’`

Deleting an item:

`‘/catalog/moustache/comb/delete’`

The app will also serve JSON endpoints:

`‘/catalog.json’`

`‘/catalog/moustache.json’`

Necessary Routes are as follows:

`‘/’`

`‘/catalog’`

`‘/catalog/<category>’`

`‘/catalog/<category>/items’`

`‘/catalog/<category>/<item>’`

And once Logged In:

`‘/’`

`‘/catalog’`

`‘/catalog/add’`

`‘/catalog/<category>/<item>/edit’`

`‘/catalog/<category>/<item>/delete’`
